

Neptun BC1

A sole & boot cleaner offering three advantages

Cleaning both the sole and entire boot, the universal machine **Neptun BC1** (Boot Cleaner 1) solves any problem with dirt. Its sophisticated and functional design enable efficient and quick washing of both the sole, uppers and bootlegs of work boots and shoes separately from each other. Thus, the **Neptun BC1** combines the functions of several machines in a single unit.

The two vertical roller nylon brushes clean intensively the bootlegs, while the lower horizontal brush provides for perfect finish of the sole. For pure sole cleaning on clogs and low shoes, the lower revolving brush can also be started and operated individually. Therefore, the **Neptun BC1** adapts to the needs of each user. Dirt on the upper shoe can be easily washed off thanks to the practical EasyClean function. There is a separate cleaning opening underneath the revolving brush. A quick release permits complete swing-up the stainless steel front section, enabling fast and easy cleaning of the machine. The switch cabinet is hung directly behind the **Neptun BC1** and thus, located outside of the wet and dirt area.

Technical data	Neptun BC1
Dimensions (W x D x H)	770 x 870 x 1270 mm
Weight	140 kg
Design	V2A 1.4301 (X5CrNi18-10), AISI 304
Brushes	2 vertical brushes (boot sides) 1 horizontal brush (upper and lower sides)
Water pressure recommended	3 bar
Water temperature	5-50 °C
Water flow rate	5 l/min
Mains connection	400Volt, 0.55 kW, 50 Hz*
Control	Switch cabinet for wall mounting
IP protection class	IP 55

*Special motor on request

Easy cleaning of the upper shoe

Roller brushes made from nylon

Simple opening for cleaning purposes

Bracket for cleaning detergent

- ▶ For very dirty shoes and boots
