

Solamat

90 · 100

150 Shine · 200

Solid and compact dry cleaning

The stable sole cleaning machine **Solamat 90** has four brushes, which counter-rotate and clean the soles from below. Two lateral disk brushes clean the edges of the soles. Brushed off dirt falls into the large dirt collecting tray. This tray can be easily emptied. The ergonomically shaped handrail provides the user with firm hold.

The sole cleaning machines **Solamat 100, 150 Shine** and **200** are designed for industrial applications, too. These types are equipped with four revolving brushes cleaning the soles and two lateral disk brushes do the same with the edges of the shoes. In addition, the upper leather brush cleans the upper shoe. Brushed off dirt falls into the large dirt collecting tray underneath the brushes. This tray can be easily emptied. The belt drive ensures tractive power and smooth running. **Solamat 150 Shine** is equipped with a polish dispenser to polish the uppers with high class brushes made of wool yarn. Thus it fits the needs of industrial applications as well as e.g. riding stables or hotels.

The **Solamat 200** model is equipped with an extractor and filter unit in the housing frame, in addition. The filter can be easily replaced.

Solamat 100/200, graphite

Solamat 150 Shine with polish dispenser, graphite

Extractor and filter unit (Solamat 200)

Solamat 90, agate-grey

- ▶ Compact design
- ▶ Powerful, robust motor
- ▶ Smooth running on account of round belt drive
